An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eddie Scott on 6-24-04.

The application has been amended as follows:

In the Specification:

On page 1, paragraph [0002], line 2, after "2001," insert therefore --now U.S. Patent No. 6,657,160--.

On page 15, paragraph [0025], line 2, after "1998," insert therefore --now U.S. Patent No. 6,198,069--.

In the Claims:

Claim 6, line 2, delete "1" and insert therefore --5--.

Claim 7, line 2, delete "7" and insert therefore --5--.

Claim 8, line 2, delete "7" and insert therefore --5--.

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art teaches metal pieces which are subjected to laser peening wherein a laser is directed to a first side to produce pressure pulses within the metal piece. The

prior art also teaches the use of acoustic coupling material such as water or the like in conjunction with the laser peening process. However, the prior art does not teach or suggest applying an acoustic coupling material to the second or back side of the metal piece which serves to dampen the pressure pulse reflection and thereby decrease the deleterious effects within the interior of the material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
